

Benedict Boisclair

Backend / Full-Stack Engineer

Bangkok, Thailand • +66 92 603 6969 • ben.b.boisclair@gmail.com • linkedin.com/in/benedict-boisclair • github.com/BenBoisclair

Backend-focused full-stack engineer who takes products from MVP to production in under two months, has secured ฿3M+ in funding across ventures, and has scaled platforms to 1,000+ users. Strong in backend architecture, layered design patterns, caching, authorization, and cloud infrastructure. A fast learner who picks up new languages and stacks quickly and collaborates well across cross-functional, multicultural teams.

EXPERIENCE

Full-Stack Engineer / CTO

January 2025 – Present

EventLink · www.eventlink.dev

- ▶ Founded and lead technical development of an event-management platform, driving it from MVP to production with real users in under 2 months while leading a small engineering team.
- ▶ Secured a ฿1.5M government innovation grant (TED Fund, 2025) and own the full technical roadmap end to end.
- ▶ Architected the full stack with Laravel 12, Inertia v2, Vue 3, and PostgreSQL, applying layered patterns (Actions, DTOs, View Models, state machines, and domain events) backed by a Pest test suite.
- ▶ Built a custom two-tier permission system (organisation authority plus event-level roles) with a Redis-cached authorization layer and immutable audit logging.
- ▶ Shipped AI-assisted workflows, including streaming task generation and an in-app assistant, using Claude with retrieval-augmented generation (RAG).
- ▶ Delivered a fully bilingual (English/Thai) product and managed cloud infrastructure across AWS S3, DigitalOcean, and Cloudflare (CDN and DDoS protection).
- ▶ Earned 3rd place at the TED Youth Startup Championship 2025 (Central Region) and represented Thailand at FlyAsia Busan 2025.

Full-Stack Engineer

September – December 2024

SCB 10X Co., Ltd.

- ▶ Contributed to Rubie Wallet (USDC-to-THBX payment app) as part of a 10+ person engineering team.
- ▶ Built the backend vendor module in NestJS, including location-based filtering and map distance calculations.
- ▶ Developed Flutter frontend components (transaction history, QR scanner) that let senior developers integrate features faster.
- ▶ Delivered on time for a successful beta launch at Thailand Dev Expo.

Full-Stack Engineer / CTO

February 2023 – August 2024

The Hominians Co., Ltd. · www.taste-map.com

- ▶ Led the product team to build and scale the platform to 1,000+ users.
- ▶ Secured ฿1.5M in grant funding, including a ฿1M YSF TED Fund grant and a ฿200K SiBB grant, and managed the technical roadmap.
- ▶ Selected as a ฿130K representative award recipient at the UNDP Youth Co:Lab.
- ▶ Built full-stack features using React Native, Next.js, and PostgreSQL, with cloud infrastructure on Supabase and Vercel.

INTERNSHIP EXPERIENCE

Software Engineer Intern

October 2022 – February 2023

Siam Piwat Co., Ltd.

- ▶ Built a Python web scraper analyzing 10,000+ social media posts for sentiment insights.
- ▶ Assisted a senior developer in implementing an OCR system (Huawei OCR) for receipt recognition.
- ▶ Collaborated on UX/UI design for 3 OneSiam app features (coupons, feed view, points system).

Software Engineer Intern

June 2022 – November 2022

Stelligence Co., Ltd.

- ▶ Delivered a first full-stack web application under senior-developer mentorship.
- ▶ Gained foundational experience in data analytics and the software development lifecycle.

EDUCATION

B.A.Sc. in Integrated Innovation

August 2021 – May 2024

Chulalongkorn University · GPA 3.4 / 4.0

- ▶ BAScii Ambassador Award recipient (฿100,000 grant); applied lean-startup methodologies across multiple ventures.

SKILLS

Backend: Laravel, NestJS, Node.js, PHP, REST APIs, layered architecture (Actions / DTOs / domain events), state machines

Databases & Caching: PostgreSQL, MySQL, Redis

Languages: TypeScript, JavaScript, PHP, Python

Frontend: Vue.js, Inertia, React, Next.js, React Native

Cloud & DevOps: AWS S3, DigitalOcean, Docker, Cloudflare (CDN, R2, DDoS protection)

Testing & Practices: Pest, Git/GitHub, Agile/Scrum, Figma, Supabase · **Spoken:** Thai (Native), English (Fluent)

Soft Skills: Technical leadership, ownership, cross-functional collaboration, problem-solving, clear communication
